REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art is to Mahoney (US 2003/0042291) and Yen et al (US 4157923). In combination, these references suggest applying a thermal spray coating to a substrate and using friction stir welding to mix together the spray coating and substrate to form a composite material at the surface of the substrate, as discussed in paragraph 6 of the January 6, 2006 Office Action. However, neither of these references or any of the other cited references, alone or in combination, teaches or suggests "mixing all the thermal spray coating and all the substrate by friction stir welding, forming a monolithic composite material" (independent claim 1) or "forming a monolithic composite material by mixing all the thermal spray coating and all the substrate by friction stir welding" (independent claim 16), as the references only suggest the mixing in a surface area of the substrate, not the entire substrate.

The Examiner understands that the claim of mixing all the thermal spray coating and all the substrate to form the monolithic composite is supported by the disclosure as filed, because the specification at page 9 provides that the mixing of the thermal spray coating into the substrate can produce a monolithic or a surface based composite material, thus indicating that the "undifferentiated whole" of monolithic would be created from all the materials, as the alternative of a "surface based composite" would be directed to a differentiated whole, since only part of the materials would be mixed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine A. Bareford whose telephone number is (571) 272-1413. The examiner can normally be reached on M-F(6:00-3:30) with the First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on (571) 272-1423. The fax phone numbers for the organization where this application or proceeding is assigned are (571) 273-8300 for regular communications and for After Final communications.
